

IV. Other Options Fees and Rebates

A. QCC and Solicitation Rebate

- Members using the Qualified Contingent Cross (QCC) and/or other solicited crossing orders, including solicited orders executed in the Solicitation, Facilitation or Price Improvement Mechanisms, will receive rebates according to the table below for each originating contract side in all symbols traded on the Exchange. Once a Member reaches a certain volume threshold in QCC orders and/or solicited crossing orders during a month, the Exchange will provide rebates to that Member for all of its QCC and solicited crossing order traded contracts for that month. All eligible volume from affiliated Members will be aggregated in determining QCC and Solicitation volume totals, provided there is at least 75% common ownership between the Members as reflected on each Member’s Form BD, Schedule A. The applicable rebates will be applied on QCC and solicited crossing order traded contracts once the volume threshold is met. Members will receive the Non-“Customer to Customer” rebate for all QCC and/or other solicited crossing orders except for QCC and solicited orders between two Priority Customers. QCC and solicited orders between two Priority Customers will receive the “Customer to Customer” rebate or “Customer to Customer” Rebate PLUS, respectively. The volume threshold and corresponding rebates are as follows:
- Non-“Customer to Customer” and “Customer to Customer” volume will be aggregated in determining the applicable volume tier.

 1. Designate, in writing, to the Exchange which sessions are MORP eligible according to the criteria below;
 2. Provide to its clients, systems that enable the electronic routing of option orders to all of the U.S. options exchanges, including Nasdaq ISE;

 5. Configure its own option order routing functionality such that Nasdaq ISE will be the default destination for all unsolicited Crossing Orders, provided that market conditions allow the Crossing Order to be executed on Nasdaq ISE, with respect to all option orders as to which the EAM has routing discretion; and
 6. Ensure that the default routing functionality permits users submitting option orders through such system to manually override the Nasdaq ISE as the default destination on an order-by-order basis.
